£1,200,000

HSBC Retail Refresh Banking

Thompsons have worked with various Main Contractors on the HSBC Refresh programme which has been ongoing for the past four years.

Thompsons have completed a vast number of installations to new retail units and the existing branch network to upgrade the facilities in line with the new retail refresh scheme.

Installations at flagship branches and commercial Centre's including Aberdeen, Harrogate, Glasgow and Manchester.

Numerous other branches and commercial centres were undertaken via fast track programmes with out of hours working to enable branches to operate with minimum disruption.

Scope

New Distribution scheme to provide sufficient power throughout the new branches. General power installation for dedicated equipment throughout the branch.

A new energy efficient lighting scheme installed in line with the HSBC Retail Banking concepts to provide sufficient light levels and specialist marketing lighting.
