

Virgin Money Lounge - Norwich

CASE STUDY

Sector
Retail Banking

Installation
Lighting and Power refurbishment to existing Virgin Money Lounge

Value
£35,000

“Thompson Electrical are able to complete projects on time on budget and adapt working hours to the demands of the client”

Steven Miller
SYL Contract Manager

New lighting and power installation for a new Virgin Money Lounge in Norwich.

The Virgin Money lounge is a new banking concept providing an area for Virgin Money customers to work, relax and connect with others.

Thompson produced a lighting and power design to reflect this concept and create the atmosphere intended by the client

The installation included new lighting, power fire alarm, security and data.

The project was completed on a short timeframe to ensure operation of the branch in time for Christmas.
